

# Absence of Care Label Authority

Due to the fact there is NO CARE LABEL on this authority to inform the Dry Cleaner the correct procedure to be used, we require you to sign this form authorising us to clean the article using what we as the Dry Cleaner deem as the most appropriate method. This procedure will involve either dry cleaning and/or wet cleaning (i.e. washing) the above mentioned article, depending on the fibre content and any staining or discolouration that may be evident on the article.

Whilst we will make every effort to ensure a successful result, we cannot, however, accept any responsibility for the outcome.
